All-in-One

GENEVA SOUND SYSTEM MODEL XXL

The Geneva Sound System Model XXL combines stunning looks with advanced acoustics to produce a powerful home theater and high-fidelity music system contained inside an elegant furniture-grade wood cabinet finished in a choice of **white**, **black**, or **red piano-lacquer**.

Model XXL features Apple Airplay® and Bluetooth for wireless music streaming, along with a built-in FM and internet radio receiver. Designed to hold up to a 65-inch flat screen placed on top, connection to a television is made using HDMI. There is interior storage with ample space for components such as a cable box, game console, or DVD player.

State of the art digital amplifiers power six speakers and an 8-inch subwoofer. Each speaker is individually powered and housed in its own chamber for accurate and balanced acoustics.

CUSTOM HOME THEATRE

Experience movies, concerts and gaming on the biggest picture of all. A ceiling-mounted projector system with separate screen will give you a picture up to 150 inches, and transform your family room into a home entertainment retreat.

Our expert staff will work with you to custom design a system that's just right for your space. And of course we come to your home, hook everything up, hide all the wires and cables, and teach your whole family how to push all the right buttons.
